No. 2126 F.R.—Sh. K. P. Ramo Ayyar, Assistant Accountant-General, Madras, has been granted privileges leave for ten days with effect from the 15th October 1921.

No. 162.—The following Circular letter of the Assistant-Comptroller, Madras, No. T.M. 18-4-349, dated the 11th November 1921, is published:—

To  
All Drawing Offices at Madras.  
All Banks at Madras.

The attention of officers presenting bills for payment at this office is directed to the arrangement provided by article 78 of the Civil Account Code, Volume I, eighth edition, of signing and presenting them three days before the last working day of the month to which the bills relate, and they are requested to take full advantage of the provision so that there may be no avoidable delay in their bills being passed and kept ready for payment on the first working day of the next month. There is at present far too great a rush of bills on the last day of a month and the first few days of the next, and consequently much inconvenience is caused both to this office and to the officers themselves.

In order to minimize the delays that now occur in the delivery of cheques that have been drawn out as amount of the a/ccts. having to wait for orders from the office of their bills having been passed, it has been decided to modify clause (b)(1) of paragraph 3 of the office Circular letter No. T.M.P. 4, dated the 18th September 1921, so far as the presentation of bills drawn in that clause affects bills which are payable on a particular day, e.g., monthly establishment and salary bills. In future, i.e., commencing for bills relating to November 1921, no orders will be sent in the case of such bills, except when there are disallowances and officers should send orders and receipts for the correct amount in the proper form duly stamped where necessary, and take delivery of the cheques as the first of the following month. It is hoped that this altered procedure will enable officers to get cheques for their salary and establishment bills without any delay.

Officers will however continue to be sent as at present in all other cases, and as the experience of the last few months shows that there is an unnecessary accumulation of undelivered cheques in this office, officers are particularly requested to see that they send back the orders with necessary receipts as soon as instructions reach them of their bills having been passed for payment.

(2) Ordinarily the president shall put amendments to the vote in the order in which they have been moved and finally the original motion if all the amendments are lost. But it shall be in his discretion in any case to put to the vote the original motion and the amendments in such order as he thinks fit.

(9) When any resolution involving several points has been discussed, it shall be in the discretion of the president to divide the resolution and put each or any point separately to the vote as he may think fit.

(9) A candidate having completed his paper will rise from his seat and remain standing until the Superintendents take his answer papers. Any candidate wishing to ask any question of the Superintendents will pause the same moment, but will, on no account, leave his place.

## Circular.

For paragraph 7 of the notice on the reverse of the baggage declaration form printed on pages 1941-1942, Part II, Fort St. George Gazette, dated 21th October 1921, substitute the following:—

(1) Any article of foreign production on which duty has been paid in, on reimportation, exempted from duty, provided the Customs authorities are satisfied—

- (a) as to the identity of the article;
- (b) that no drawback of duty was paid on its export;
- (c) that the article has not changed or has remained in the family of the original importer;
- (d) that it is private personal property reimported for personal use, not merchandise for sale; and
- (e) that not more than three years have passed since it was re-exported.

All such articles must be entered in the declaration and the proceeds of exemption, stated in the last column. The drawback receipt granted under paragraph 8 must be produced, or no claim for exemption under this paragraph will be admitted.

Note.—The list of the articles mentioned above will not be entered in the case of articles purchased locally, which will be entered to the benefit of the exemption provided that the exemption is then not changed or has remained in the family of the importer between the time of re-export and subsequent re-import. No proof of the original payment of duty will be required in the case of such exports, provided the articles are readily and satisfactorily identified at the time of re-import. This exemption is also extended to articles, such as weapons, re-exported through dealers for repairs. Duty will, however, be charged on the cost of repairs.

The Standard Barometer and Thermometer are read at 8 a.m., 10 a.m., 4 p.m. and 8 p.m. and the daily means are obtained by the application of hourly corrections, deduced from twenty years observations. The column of the barometer is twenty-two feet above the level of the sea, and the receiver of the aneroid is two feet from the ground. The wind, rain and general weather registered are for the current half day—from midnight to midnight.

The total quantity of rain collected since January 1st in 1921 is 22.39 inches, the average due for the year being 22.99 inches.
